

Weather Advisory Procedures

Dear Families,

It is the season of unpredictable weather, which serves as a reminder that all family contact information needs to be up to date at all times in case of an unexpected school closing, delayed opening, or early dismissal.

Honeywell Instant Alert® for Schools System is our first line of communication to families for emergency information. Honeywell will send a message to your main phone, mobile phone, email address, and other devices that you provide. We have already created profiles for each student and their families, however, not all information may be up to date. ***Please login with your username and password if you have done so in the past, or create a login, to view your profile and make all necessary updates to phone numbers and email addresses.***

<https://instantalert.honeywell.com>.

To create a login, you will need to choose New Jersey as your State and The Newgrange School as your District, and your child's name and birthdate. Then you will be asked to create a username and password.

If you have any questions or need help with your Honeywell profile, please contact Alison Greenberg at 609-566-6000 ext. 210.

When the weather is questionable, the Laurel School will follow the Princeton School District decisions regarding weather-related changes to the schedule. If Princeton Schools close for the day, have a delayed opening, or dismiss early because of inclement weather, Laurel will too. In addition to the Honeywell alert and our school website, you can check the following for updates:

Princeton School District
<https://www.princetonk12.org/>
Radio - NJ 101.5
<https://nj1015.com/>

The safety of your children is our top priority. We thank you in advance for taking the above steps to ensure that we can communicate with you quickly and efficiently at all times.
